

Letter of Recommendation

To Whom It May Concern,

I am pleased to recommend **Ragav U**, who worked with **Enginow** as an Artificial Intelligence Intern and demonstrated strong analytical ability, technical proficiency, and professionalism throughout his tenure.

At Enginow, he/she contributed to core AI tasks including data preprocessing, exploratory data analysis, model development, and performance evaluation. He/She implemented machine learning algorithms, analyzed model outcomes using relevant metrics, and supported optimization initiatives to improve accuracy and efficiency. He/She effectively translated problem statements into structured, data-driven solutions and executed them with clarity and ownership.

He/She displayed solid coding skills, logical reasoning, and attention to detail. He/She handled assigned responsibilities with accountability, conducted independent research when required, and maintained proper documentation and version control practices. His/Her problem-solving mindset added measurable value to the projects he/she contributed to.

He/She collaborated effectively with the team, maintained a professional attitude, and consistently met project deadlines.

I am confident he/she will continue to grow in the field of Artificial Intelligence and will be a valuable asset to any organization he/she joins. I strongly recommend him/her without reservation.

Best regards,

Ankush Singh
Founder , Enginow
